PERSONAL PROFILE

Bachelor's degree in Computer Science with a focus on Web Development and IT Support. Proficient in web development using PHP, JavaScript, and Bootstrap, as well as database management using MySQL as a database management system (DBMS). I am a team player, adaptable, and eager to grow in a professional work environment. I am seeking a position as a Web Developer, IT Systems Analyst, or IT Support Specialist at a dynamic and growing company where I can apply my technical skills, continue learning, and contribute to the development of efficient and high-quality systems.
